Mr. John T. Jeffs  
J&J Mailbox  
20594 Ottawa Road  
Apple Valley, CA 92308-6253

Dear Mr. Jeffs,

The testing and drawing review have been completed on the city and rural curbside mailbox that was submitted to Engineering. The Letter Locker mailbox has been found to be in compliance with the requirements of USPS-STD-7. With this notification you are authorized to manufacturer this unit as approved by the United States Postal Service.

The drawing submitted for the mailbox is considered to be acceptable and has been stamped "USPS CERTIFIED DRAWING, Issue no. 1, 2/17/94." The drawing shall be used as the baseline for your city and rural curbside mailbox. Please be reminded that the baseline drawing for this mailbox is to be maintained at your facility for documentation control and USPS quality control. Any and all changes to this baseline must be reviewed and approved by the USPS before implementation.

If you have any questions, please contact Greg Flessate on (703)280-7140 or Bryce Haning on (703)280-7614.

  
James W. Bufe, Manager  
Delivery and Customer Services Equipment
